

YouTube

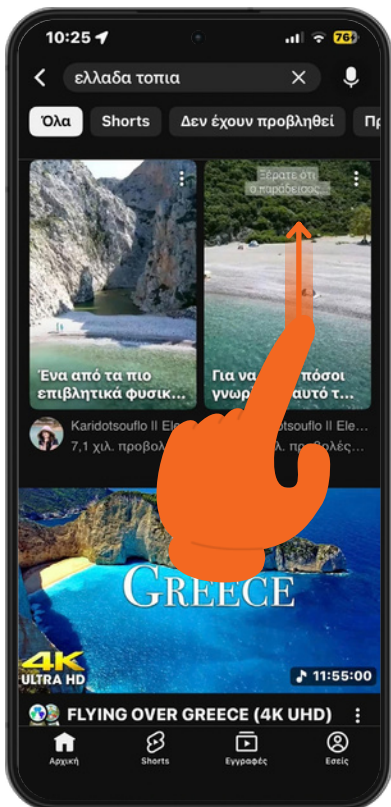

YouTube is a free app that lets you watch videos on any topic, from news and music to tutorials and documentaries, through the internet. It is one of the most widely used video apps in the world, so it is very likely that your family or friends already use it.

Play, Full Screen, Pause. How to start a video.

1. Search for a video

After searching, scroll to see all the results.

2. Browse the search results & play the video

When you find the video you want, tap its icon to start playing it automatically.
