

Google Maps

Google Maps is a free app that helps you find addresses, shops, and services, and get directions to reach them, on foot, by car, or by public transport. It is one of the most useful apps for getting around safely and confidently in your everyday life.

Google Maps

Google Maps.

Navigation with Directions.

1. Tap “Directions”

After finding the location on the map, tap the blue “Directions” button below the map.

2. Choose a way to travel

Tap the icon for the travel method you want at the top of the screen to view the route, distance, and time.

Navigation with Directions.

3. Tap “Start”

Tap “Start” to begin live navigation with step-by-step directions on the screen.

4. Follow the directions

Google Maps shows your location in real time and provides spoken directions. Tap the speaker icon at the bottom-right to turn the sound on or off.
