video on our website:

Different browsers.

A browser is the app you use to go onto the internet and view websites. On iPhones, Safari is usually used, while Google Chrome is also available. Using a browser, you can search for anything that interests you, read news, view maps, watch videos, or shop online. It is like a gateway that takes you anywhere on the internet through your mobile phone.

Safari.

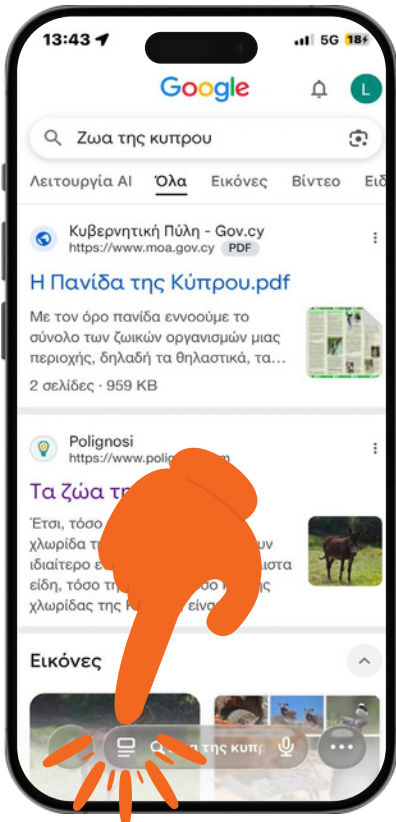

Safari is the browser that comes pre-installed on every iPhone. It lets you browse the internet, search for information, and visit websites without needing to download anything extra.

How to change font size in Safari.

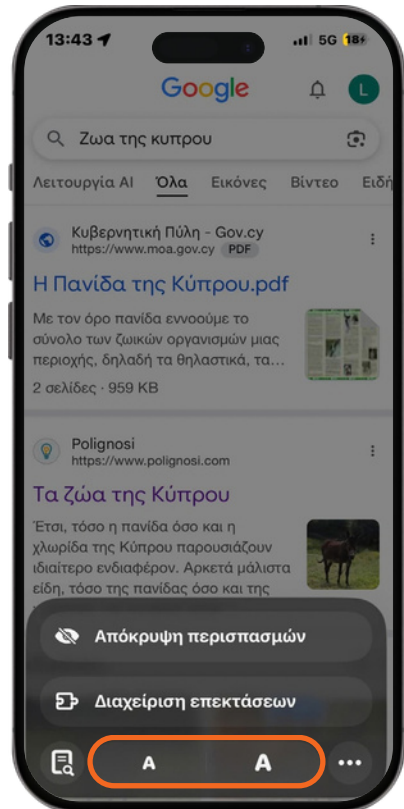

1. Open the panel

Tap the icon on the left side of the search bar to open the options panel.

2. Change the font size

Tap the small “A” to make the website text smaller, or the large “A” to make it bigger.

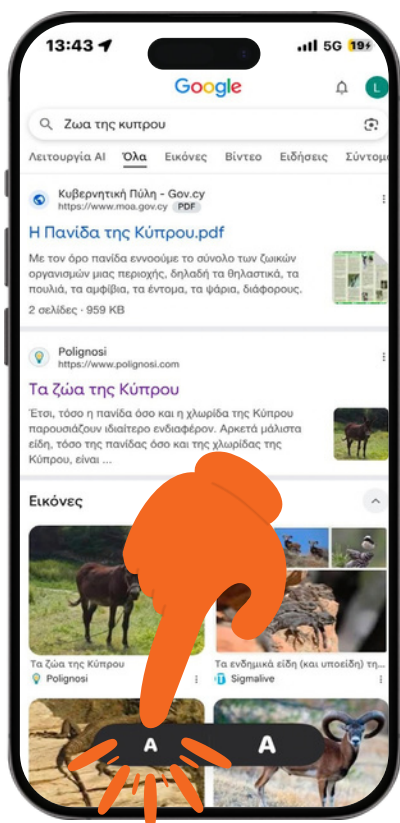

Safari.
