

Google Chrome.

Google Chrome is the app you use to browse the internet from your Android mobile phone. It lets you search for information, open websites, and save pages so you can easily find them again later.

Refreshing a page.

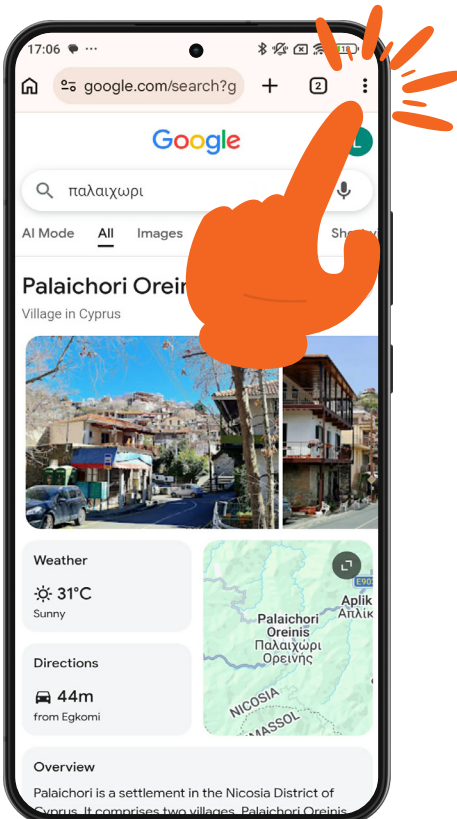

Refreshing a page means the browser reloads the website from the beginning and requests its data again. We use this when a page freezes, when we want updated content, or when some parts have not loaded correctly.

Google Chrome.

How to refresh a page.

1. Tap the three dots

Tap the three dots at the top of the Google Chrome screen.

2. Tap the reload button

From the menu, tap the reload button to reload the page.
