

Google Chrome.

Google Chrome is the browser usually used on Android devices, although it can also be downloaded on an iPhone. It works in a similar way to Safari: it lets you search the internet, open websites, and save them so you can easily find them again later.

Google Chrome.

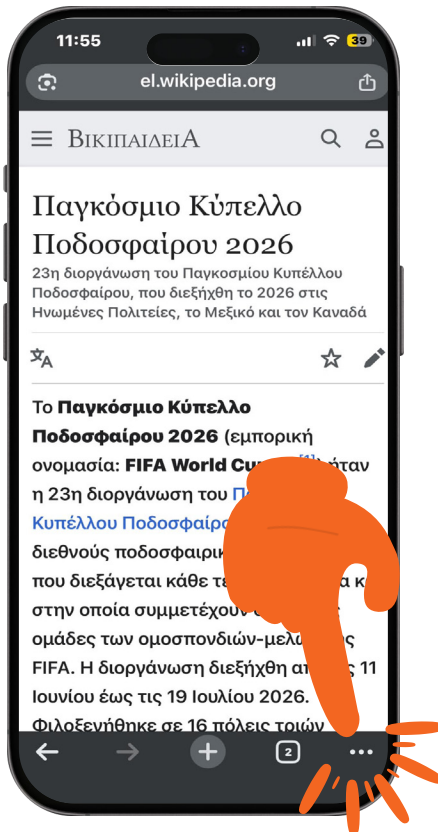

Refreshing a page in Google Chrome.

Refreshing a page means that the browser reloads the website from the beginning and requests its data again. We use this when a page freezes, when we want updated content, or when some parts have not loaded correctly.

How to refresh a page.

1. Tap the three dots

Tap the three dots (⋮) at the bottom of the Google Chrome screen.

2. Tap “Reload”

From the menu, tap “Reload” to reload the page.
