

Google Chrome.

Google Chrome is the browser usually used on Android devices, although it can also be downloaded on an iPhone. It works in a similar way to Safari: it lets you search the internet, open websites, and save them so you can easily find them again later.

Bookmarks in Google Chrome.

A bookmark is like marking a page you like, so you can find it again easily without searching for it from the beginning.

Google Chrome.

How to add a page to your bookmarks.

1. Open the page you want

Go to the website you want to save.

2. Tap the three dots

Tap the three dots (...) at the bottom of the Google Chrome screen.

How to add a page to your bookmarks.

3. Tap “Add Bookmark”

From the menu that opens, tap “Add Bookmark” and then “Save”.

4. The page has been added!

The page has been saved and you can find it again whenever you want.
