

Google Chrome.

Google Chrome is the app you use to browse the internet from your Android mobile phone. It lets you search for information, open websites, and save pages so you can easily find them again later.

Sharing a page.

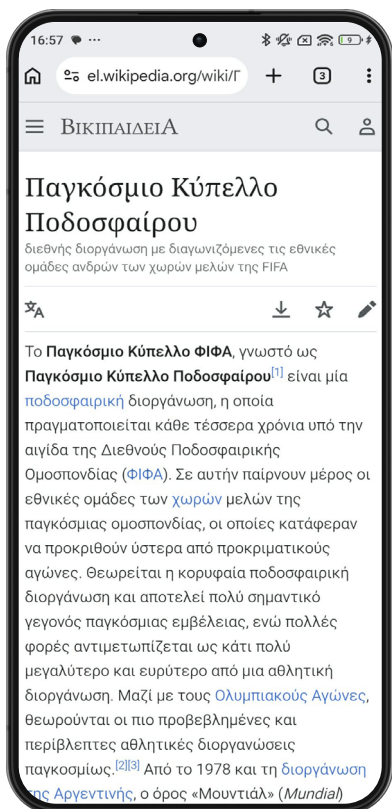

Sharing a page means you can send a website to someone else, for example through a message, email, or communication app.

Google Chrome.

How to share a page.

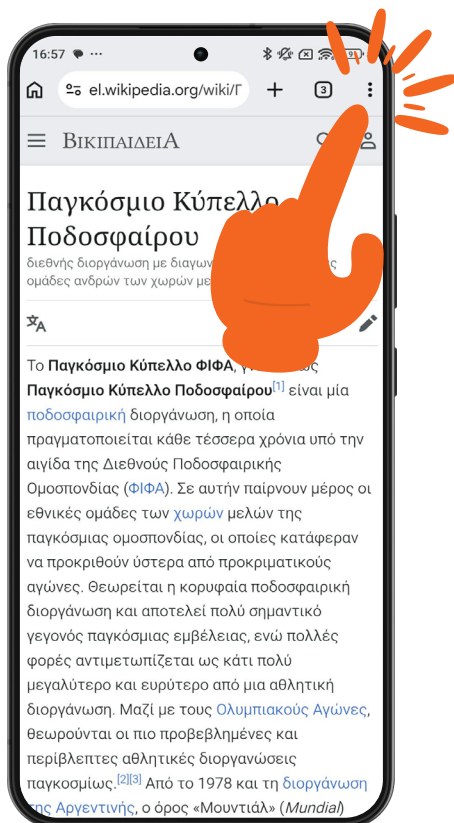

1. Open the page you want

Go to the website you want to share.

2. Tap the three dots

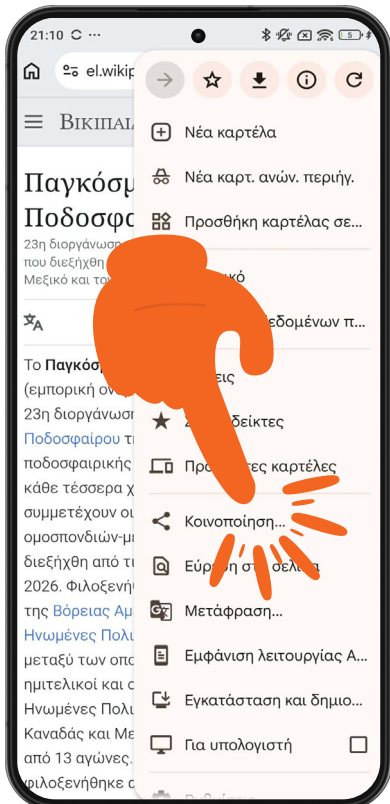

Tap the three dots (...) at the top of the Google Chrome screen.

How to share a page.

3. Choose “Share via Chrome”

Swipe the screen down and tap
“Share via Chrome”.

4. Choose how to send it

Choose, for example, “Messages” or “Email”, then choose the person you want to send the page to.
