

Browsing the web.

In this section, you will learn how to browse the internet, search for things that interest you, and use the Safari and Google Chrome browsers on your mobile phone.

Different browsers.

A browser is the app you use to go onto the internet and view websites. On iPhones, Safari is usually used, while Google Chrome is also available. Using a browser, you can search for anything that interests you, read news, view maps, watch videos, or shop online. It is like a gateway that takes you anywhere on the internet through your mobile phone.

Safari.

Safari is the browser that comes pre-installed on every iPhone. It lets you browse the internet, search for information, and visit websites without needing to download anything extra.

Safari.

Tabs in Safari.

A tab is a separate page inside Safari. Each time you open a new website in a tab, you can leave it open and return to it whenever you want, without losing the page you were viewing before.

Safari.

How to close a tab you no longer need.

Option 1

1. Zoom out

Use the zoom-out gesture on the Safari screen to view all your tabs.

2. Find the tab and close it

Tap the “X” on its preview, or swipe it to the left.

How to close a tab you no longer need.

Option 2

1. Tap the three dots

Tap the three dots (...) at the bottom of the Safari screen.

2. Tap “All Tabs”

From the menu that opens, tap “All Tabs” to see your list.

Safari.
