

Google Chrome.

Google Chrome is the browser usually used on Android devices, although it can also be downloaded on an iPhone. It works in a similar way to Safari: it lets you search the internet, open websites, and save them so you can easily find them again later.

Google Chrome.

Tabs in Google Chrome.

A tab is a separate page inside Google Chrome. Each time you open a new website in a tab, you can leave it open and return to it whenever you want, without losing the page you were viewing before.

Google Chrome.

How to close a tab you no longer need.

1. Tap the tabs icon

Tap the tabs icon at the bottom of the Google Chrome screen to see all your open tabs together.

2. Find the tab and close it

Tap the “X” on its preview, or swipe it to the left.
