video on our website:

# **Different browsers.**

A browser is the app you use to go onto the internet and view websites. On iPhones, Safari is usually used, while Google Chrome is also available. Using a browser, you can search for anything that interests you, read news, view maps, watch videos, or shop online. It is like a gateway that takes you anywhere on the internet through your mobile phone.

# Safari.

Safari is the browser that comes pre-installed on every iPhone. It lets you browse the internet, search for information, and visit websites without needing to download anything extra.

## **Browsing history.**

Browsing history is the list of websites you have visited, so you can find them again easily without searching for them from the beginning.

Safari.

## How to view your browsing history.

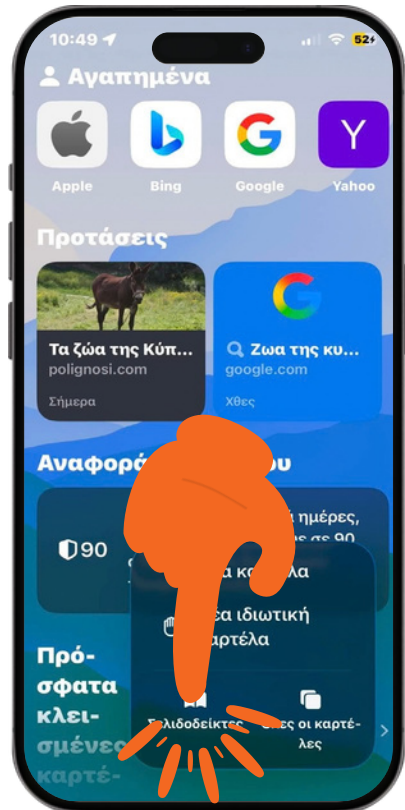

### 1. Tap the three dots

Tap the three dots (⋮) at the bottom of the Safari screen.

### 2. Tap “Bookmarks”

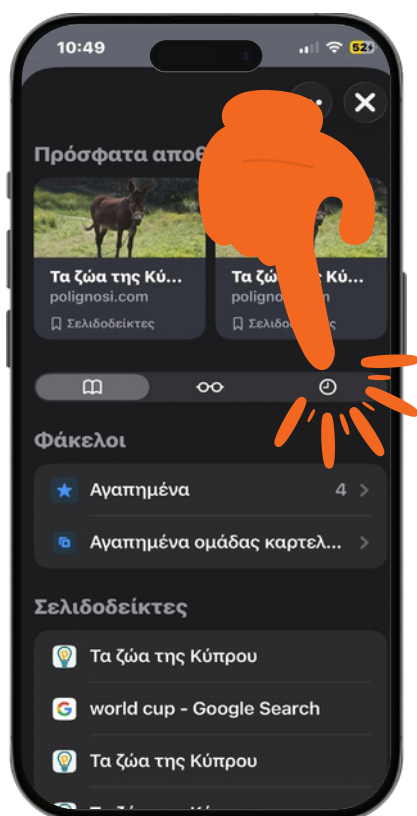

From the menu that opens, tap “Bookmarks”.

## How to view your browsing history.

### 3. Tap the clock icon

Inside the menu, there is a clock-shaped icon that takes you to your browsing history.

### 4. See when you visited each page

The list shows the pages you visited each day.
