

Google Chrome.

Google Chrome is the browser usually used on Android devices, although it can also be downloaded on an iPhone. It works in a similar way to Safari: it lets you search the internet, open websites, and save them so you can easily find them again later.

Browsing history.

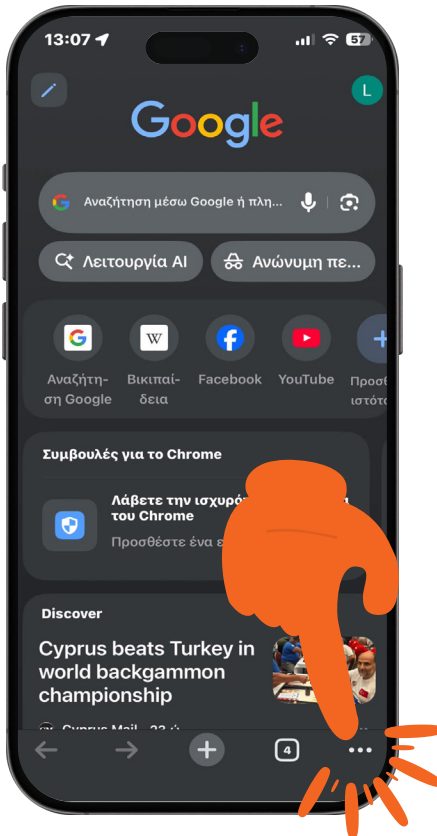

Browsing history is the list of websites you have visited, so you can find them again easily without searching for them from the beginning.

Google Chrome.

How to view your browsing history.

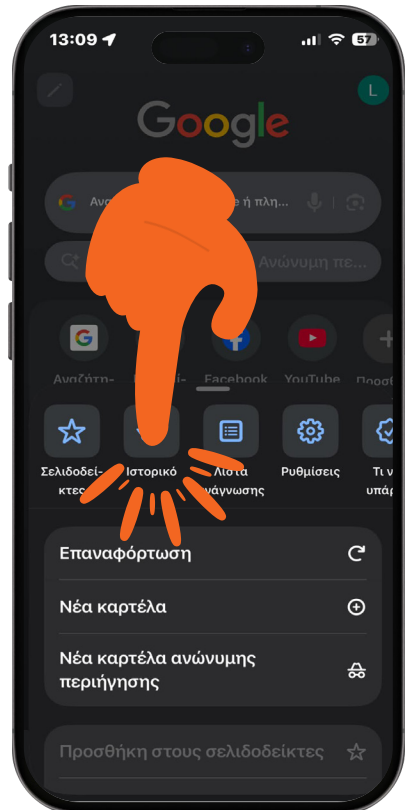

1. Tap the three dots

Tap the three dots (⋮) at the bottom of the Google Chrome screen.

2. Tap “History”

From the menu that opens, tap “History”.

How to view your browsing history.

3. View your browsing history

You will see the list of websites you have visited.
