

# Google Chrome.

Google Chrome is the browser usually used on Android devices, although it can also be downloaded on an iPhone. It works in a similar way to Safari: it lets you search the internet, open websites, and save them so you can easily find them again later.

## **Bookmarks in Google Chrome.**

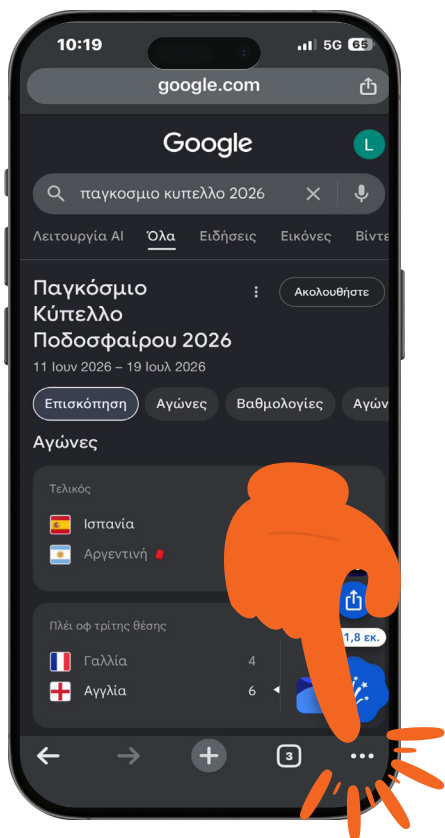

A bookmark is like marking a page you like, so you can find it again easily without searching for it from the beginning.

Google Chrome.

## How to view all your bookmarks.

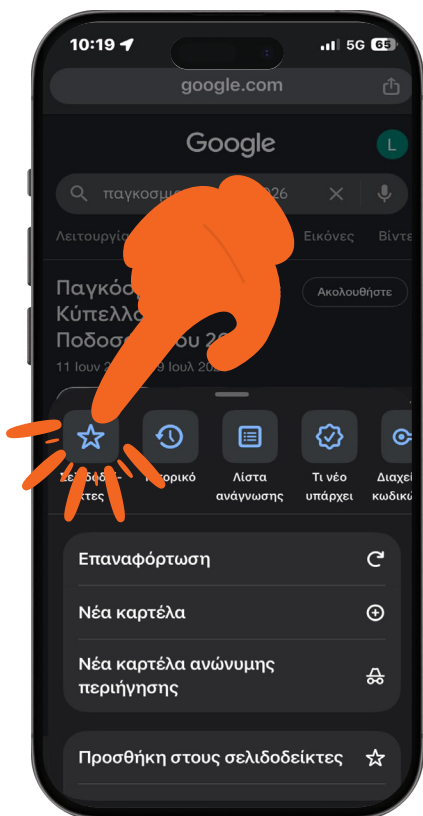

### 1. Tap the three dots

Tap the three dots (“...”) at the bottom of the Google Chrome screen.

### 2. Tap “Bookmarks”

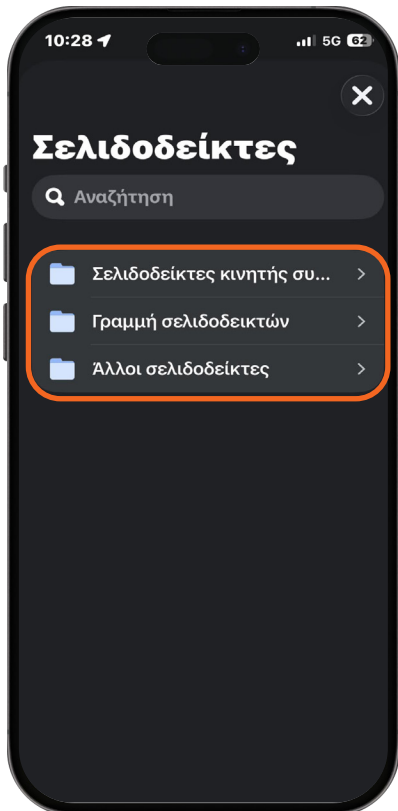

Tap “Bookmarks” to see the list of all pages you have saved.

## How to view all your bookmarks.

### 3. See what appears on the page

At the top, you will see “Recently Saved” items with small images. Below that, you will see the list of all bookmarks.

### 4. Open a page

Tap any card under “Recently Saved” or any item in the “Bookmarks” list to open the page.
