

The Messenger app.

Messenger is Facebook's messaging app. It works similarly to Viber: you send messages and photos and make video calls for free through the internet. It connects to your Facebook account, so it is convenient if you or your family already have an account there.

The Messenger app.

Sending a photo from your gallery.

1. Find Messenger

Swipe through the Home
Screen to find Messenger.

2. Open the app

Tap the Messenger
app icon.

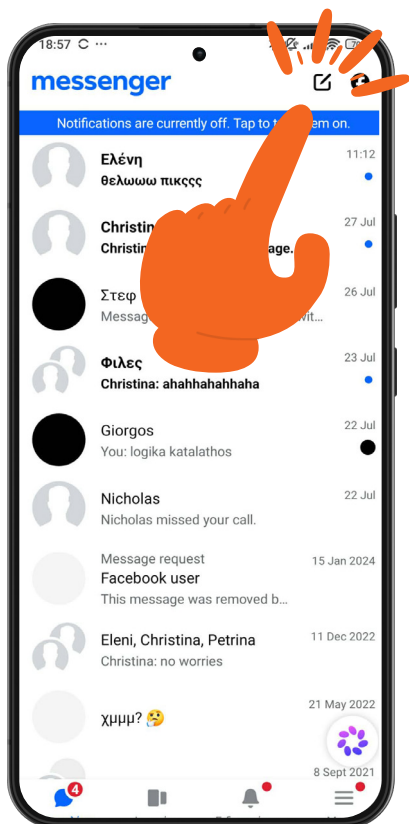

The Messenger app.

Sending a photo from your gallery.

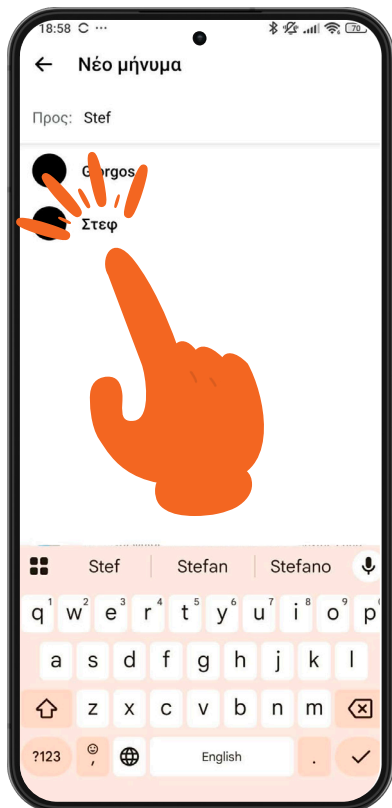

3. Tap the button at the top-right

Tap the button at the top-right to find the contact you want.

4. Open the chat

Tap the person's name to open your chat.

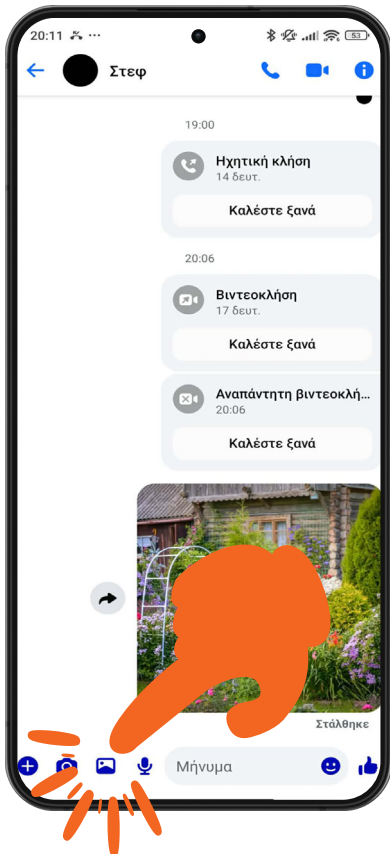

The Messenger app.

Sending a photo from your gallery.

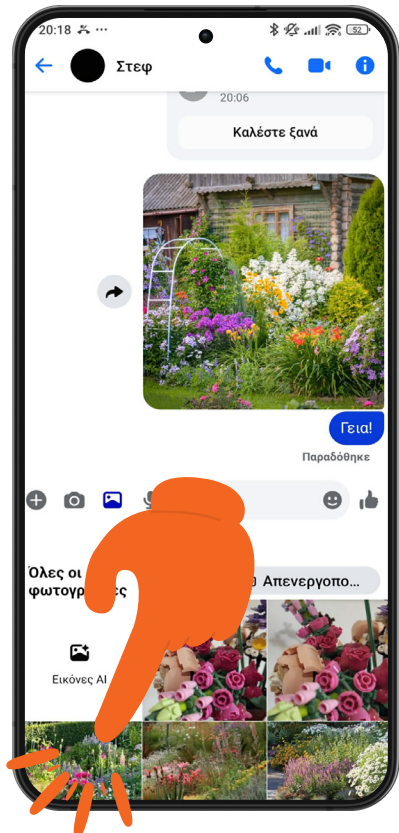

5. Tap the Gallery icon

In the chat, tap the Gallery icon next to the message field.

6. Choose the photo

Tap the photo you want to send. You can choose more than one photo if you wish.
