

The Messenger app.

Messenger is Facebook's messaging app. It works similarly to Viber: you send messages and photos and make video calls for free through the internet. It connects to your Facebook account, so it is convenient if you or your family already have an account there.

The Messenger app.

During a call: microphone, camera, switch camera, end call.

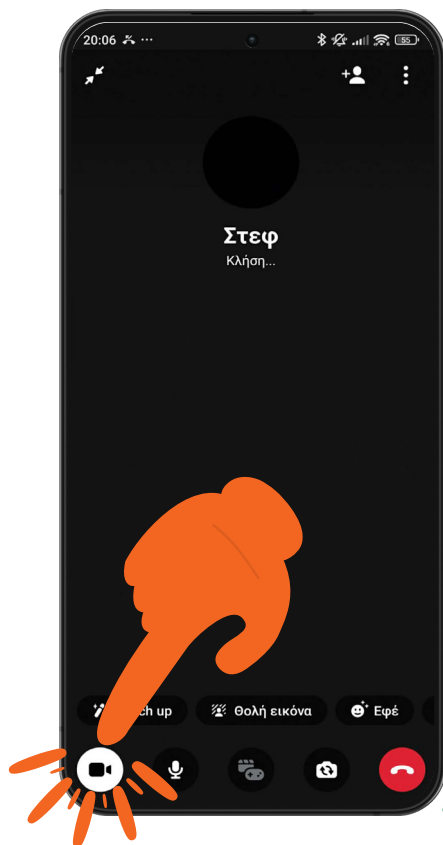

1. Turn the microphone on or off

Tap the microphone icon.
When it is off, the other person cannot hear you.

2. Turn the camera on or off

Tap the camera icon.
When it is off, the other person cannot see you.

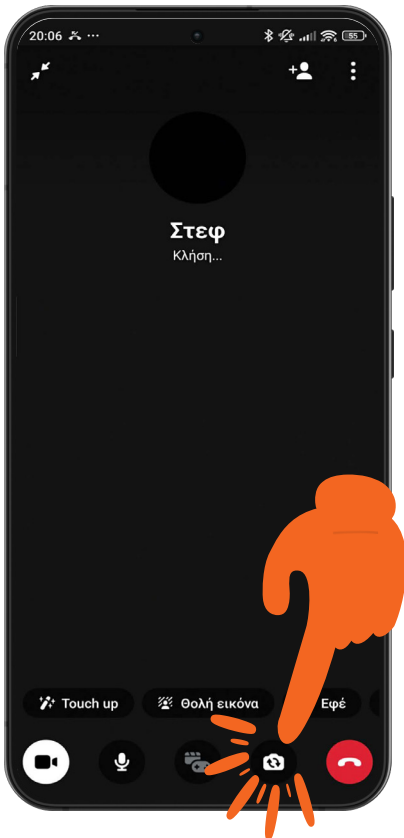

The Messenger app.

During a call: microphone, camera, switch camera, end call.

3. Switch the camera

Tap the icon with the two arrows. This switches the camera.

4. End the call

Tap the red button with the phone symbol. The video call stops.
