

The Messenger app.

Messenger is Facebook's messaging app. It works similarly to Viber: you send messages and photos and make video calls for free through the internet. It connects to your Facebook account, so it is convenient if you or your family already have an account there.

The Messenger app.

Making a Messenger video call.

1. Find Messenger

Swipe through the Home Screen to find Messenger.

2. Open the app

Tap the Messenger app icon.
