

Keyboard.

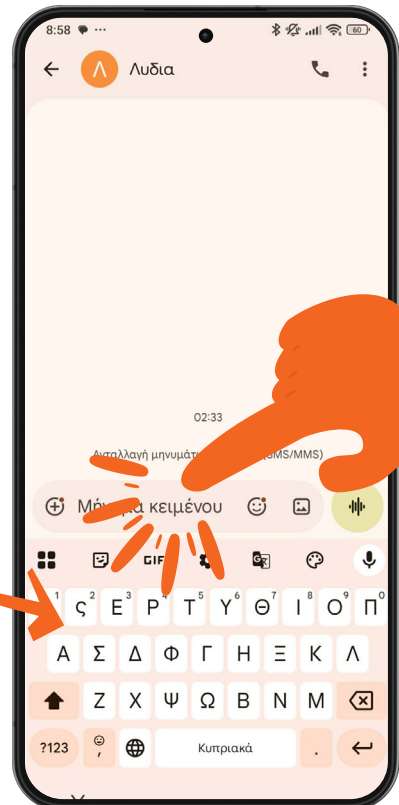

Almost every app will require you to type something, e.g., a message, a search, a code. Let's see how your phone's keyboard works.

How the keyboard appears

The keyboard appears automatically at the bottom of the screen whenever you tap on a text field.

How to type

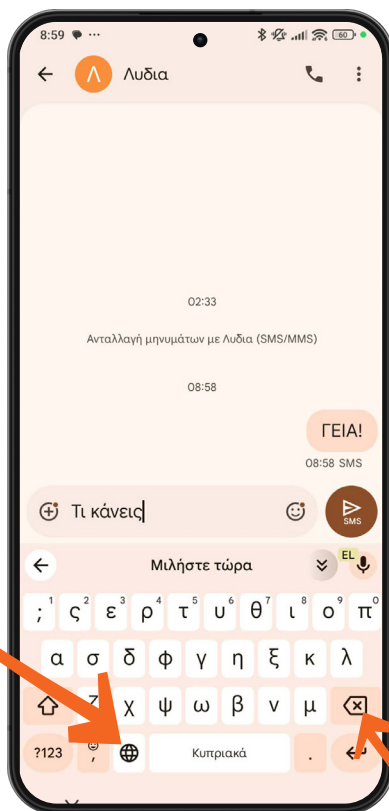

Tap on the letter you want on the screen. Each tap adds a letter where you're typing, until you form your word.

How to use the keyboard.

Switch Greek/English

Tap the globe icon or the language letters (e.g., “EL/EN”) at the bottom of the keyboard to change language.

Delete a letter

Tap the arrow with the “x” (usually bottom right) to delete the last letter you typed.
